

# Medical Cannabis Dosing & Clinical Practice Guidelines

**Jackie Wigder**

# Table of Contents

- Similarities and Differences Between Medical Cannabis and Allopathic Medicine
- Future Research to Optimize Cannabis Therapeutics
- Evaluating Clinical Practice Guidelines

## Similarities Between Medical Cannabis & Allopathic Medicine Dosing

- Titration for safety and efficacy
- Medical history and patient variables

# Differences Between Medical Cannabis & Allopathic Medicine Dosing

## Medical Cannabis

- Individualized Response
- The Entourage Effect
- Patient Preference

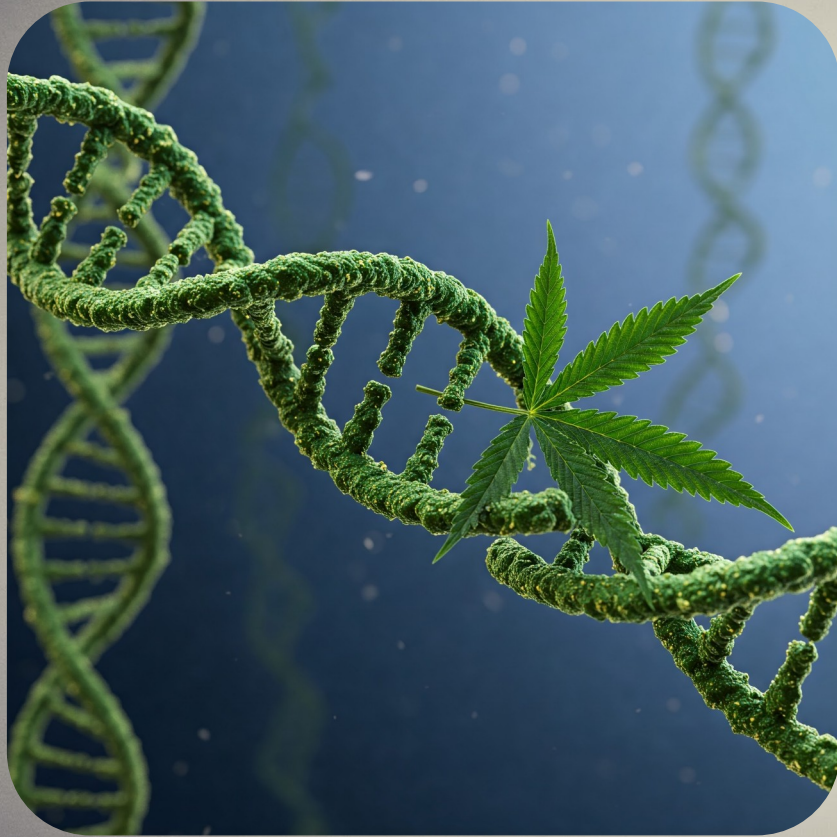

## Allopathic Medicine

- Standardized Dosing
- Isolated Compounds
- Scientific Evidence

# Future Research to Optimize Cannabis Therapeutics

- Condition-Specific Dosing Guidelines
- The Entourage Effect
- Long-Term Effects of Cannabis Use
- Standardized Measurement of Cannabinoids and Terpenes

## Future Research to Optimize Cannabis Therapeutics cont.

---

- Personalized Dosing Based on Genetics and Metabolism
- Drug Interactions
- Clinical Trials with Standardized Cannabis Products
- Patient Registries and Real-World Data

# Evaluating Clinical Practice Guidelines

---

- Composition of Guideline Panel
- Conflicts of Interest
- Systematic Reviews of Evidence
- Consideration of Important Options and Outcomes

## Evaluating Clinical Practice Guidelines cont.

---

- Patient Values and Preferences
- Decision-Making Process
- Quality of Evidence and Strength of Recommendations
